

The independently owned office of Liberty Tax Service in Hales Corners is seeking employees for this tax season. We are looking for caring and passionate people who can provide great service and have the desire to learn.

To be an awesome tax preparer you'll have to greet customers and conduct interviews with potential clients. Once you gather information from clients, you'll recommend the right products and services, and complete any related tax forms.

Don't worry if you don't have prior tax experience. You can enroll and take our Basic Income Tax Course. The tuition is FREE. There is a small fee for books and materials; however they are not required to attend the course. Having the books and materials will greatly increase your understanding of the information covered and your success in the course.

You can Register for Tax School by clicking the link below (Classes Starting Sept. 29th)
